Relevant know-how, expertise and experience

Mr. Helmrich has over 30 years professional experience in the industrial sector. In addition to a profound understanding of technology, he has great expertise in the area of digitalization and automation as well as in research and development. As a longstanding member of the Siemens AG Management Board, he also has a proven record in numerous other areas relating to a group with international operations, including in particular marketing, sales and distribution, manufacturing and production, as well as human resources and organizational development.
